---

### Professional Summary

Self-taught and highly motivated Full Stack Developer with hands-on experience building real-world applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Successfully developed and deployed full-featured projects including a Twitter Clone, Real-time Chat App, and an E-commerce Backend with integrated payment gateway. Passionate about clean code, continuous learning, and solving real-world problems. Currently seeking an internship or junior developer role to contribute to a dynamic team and grow within the software development industry.

---
